Similar like this but different

**Travel policy and updates**  
**Your wellbeing is our priority**

**Travel vaccination policy update**

All guests booked to travel with Turismo are required to be fully vaccinated to travel.

The wellbeing of our guests is our top priority. As part of this commitment, all guests travelling with us through December 31, 2023 are required to be **fully vaccinated** against Covid-19, which may include a booster shot to keep the vaccination status current and valid, depending on the travel destination. Children not eligible for vaccination and/or booster at the time of travel must provide a verifiable and negative Covid-19 test result, taken within 72 hours prior to the start of the tour (taking time zones into consideration) for all tours departing until December 31, 2023.

Please note that regardless of time of travel guests will need to comply with specific vaccine and/or booster requirements imposed by airlines and/or authorities in the destination visited, as well as requirements for accessing restaurants and venues, which may be more restrictive than above. It is guests' responsibility to ensure that they comply at all times with these requirements. No refunds will be given if guests are unable to undertake some or all of their vacation due to their failure to comply with these requirements.

This policy is subject to change at any time, without notice.
