

ALTERATION OF SINGLE CABIN INTO 4 DOOR DOUBLE CABIN REVO

DETAILED TECHNICAL SPECS

Alteration of Single Cabin vehicle into Double Cabin Revo with enhancement of space and seating capacity to accommodate 5 persons under one ceiling. The following features & specifications shall be provided, which would be checked at the time of inspection;

- Paint job must be industrial grade and done within factory premises, inside baking paint booth (American or European made) with auto-timer controlled heaters and imported dust filters in ceiling and floor. This is to ensure that paint quality is at par with international automobile standards and given proper heat treatment with minimum dust particles. (Pictorial evidence of imported paint booth and make and model shall be attached).
- Doors, Roof, External Pillars, Internal Reinforcement Pillars must be brand new and imported (second hand or refurbished parts purchased locally would not be accepted. Import documents shall be attached).
- Rubbers used inside windows or elsewhere in the cabin must be of the highest grade and manufactured by OEM Company. (Import evidence shall be attached).
- Door locks along with set of inner cables used in each door must be brand new (Aisin brand Japan). Second hand or refurbished locks or cables will not be acceptable.
- Molded interior FG door trim for all four doors.
- Side footsteps (foot board) made from Aluminum extrusion and additional reinforcement of round Stainless Steel pipe on sides shall be provided. Its ends should be molded from ABS Material.
- Additional seating (rear seat for 3 persons) must be molded and manufactured specifically for double cabin. Second hand/refurbished seat or foam sheets joint together to give it seat's shape will not be acceptable.
- Driver side seat should be sliding forward and backwards. Front passenger seat will be genuine and sliding.
- Brand new Center gear console shall be provided between driver and passenger seat. The console shall have a storage compartment and molded ABS material lid with similar ABS material hinge. It should have a dedicated space (molded from ABS, not FG) for placing of mobile phone and bottle.
- The ceiling of altered cabin shall be made from fiberglass or ABS material in one piece and upholstered with automotive fabric.

- Rear trunk shall be supplemented with aero dynamic spoiler in metallic and white color. It shall have a brake light of not less than 1 feet with built in LED's having distant visibility. It should have a chrome plate to improve its aesthetics.
- A well-designed compact FRP molded safeguard with ABS material chrome strip (Imported) shall be installed on front bumper. Poor quality safeguards available locally (made in China/Taiwan etc.) will not be acceptable.
- Roof Rack with brackets
- Diggy Seats 04 Nos. molded
